Prologue

Students Activity Council (SAC) is the student's organisation of IISER Bhopal aimed at enabling the students to manage affairs pertaining to themselves and creating a healthy extra-curricular ambience in the institute. Established in 2011, the objectives of SAC are:

- To administer and manage all student activities in the Institute.
- To promote and develop organisational and extra-curricular skills in the students.
- To channelise and address various students issues.
- To develop a well-informed, articulate and participative student community life, and to increase social awareness.
- To organise elections/nominations of students for SAC activities.
- To offer administrative and office support for all recognised student activities.

The *Constitution* of Students Activity Council (SAC) governs its election, structure and execution, which all office-bearers must adhere to. Failing to abide by the codes presented in the Constitution, in any form active or passive, intentional or unintentional, may result in an official warning or even impeachment of the responsible office-bearer. Certain important records or breakthroughs of SAC should be appended to the Constitution, decision on which vests with the Students Senate. Minor updates or amendments to the Constitution must be appended at the end as '*List of Amendments*', for proper correspondence; however in case of major intractable modifications to the Constitution the '*List of Amendments*' can be restarted/shortened whatever may be the case. Over time, obsolete entries to the '*List of Amendments*' can be skipped.

President of SAC is named the '*Warden of the Constitution*'. Only the President is permitted to make any modifications to the SAC Constitution, after appropriate approval of the Students Senate and as per the procedure established under this Constitution. Any unauthorised modification to the Constitution shall be considered ultra-vires and shall also result in the impeachment of the responsible office-bearer followed by a disciplinary action which will be initiated against him and anyone else concerned.

Finally, we hope that the Students Activity Council and the concerned office-bearers, will yield to the responsibilities granted to them by the SAC Constitution and expectations of the IISER Bhopal family.

3.5.2 Roles of the SACEC

1. SACEC will assess each and every nomination thoroughly for genuineness; i.e. if the information provided is true or not, or if the nomination agrees with all the eligibility criteria or not.
2. If a nomination is found to be fake, incomplete or not up to the eligibility criteria, it could be rejected by SACEC with proper justification and consent of DOSA. Before rejecting the nomination SACEC must allow the nominee to defend the genuineness of the information provided along with evidence. However, the decision taken by SACEC will be final and binding.
3. SACEC will administer and manage the General Election procedure. It will make all the necessary arrangements for the elections including its time, venue, procedure etc.
4. After the voting is complete, the counting of the votes and declaration of the winners shall be done by the SACEC.

3.6 Penalty

If a candidate is found using unfair means, or violating any of the rules of the election procedure, SACEC can impose a penalty on the candidate.

1. The penalty will be in the form of a percentage of the total votes secured by the candidate.
2. The penalty will be deducted from the candidate's total secured votes after the voting is complete.
3. The amount of penalty might vary according to the nature of the misconduct.
4. SACEC may cancel the nomination of any candidate if they find the misconduct to be very severe.
5. The imposition of penalty/cancellation of the nomination can only be done with the agreement of all the faculty members in SACEC and at least 2/3rd of the other members of SACEC.

3.7 Campaigning Guidelines

1. Campaigning is allowed from 7 am to 11 pm. No gatherings (i.e. of more than five people) are allowed during campaigning.
2. Candidates must not spread negative propaganda against, or try to wilfully defame any candidate or student, either directly or indirectly.
3. Posters will be fixed by the SACEC and no candidate shall be permitted to make use of printed posters, printed pamphlets, or any other material for the purpose of canvassing.
4. There is no restriction on campaigning through social media (like Facebook, Twitter, etc.). Email does not fall under the category of social media, and no candidate is permitted to use mass emailing to canvass for votes directly/indirectly.

5. No candidate is allowed to address the general body in any meeting and/or volunteer in any upcoming events till the elections are completed. A general public campaigning session will be conducted by the SACEC for the specific purpose of addressing the general body. However, the candidates are free to participate in any upcoming events.
6. After the general public campaigning session, all campaigning (through any physical me-dia) is strictly prohibited.
7. It is the responsibility of a nominee to make sure that none of the community members are disturbed during his/her campaigning process.
8. If a nominee threatens community members in any manner then it will lead to cancellation of his/her nomination. Intimidation or bullying of other candidates or voters will not be tolerated under any circumstance.
9. No candidate can promise personal incentives to any student in return for his/her vote.
10. Questioning / harassing any SACEC member is also not entertained. If a nominee is found doing so, strict disciplinary action will be taken against them.
11. If a candidate is absent for the public campaigning session then they shall forfeit their nomination. No leniency shall be shown under any circumstances.

If proof is found that a candidate is violating these guidelines, then SACEC can impose a penalty on the candidate or cancel his/her nomination.

3.8 Re-elections

Dismissal of any office-bearer (Section 2.4.6) or inconsequential elections for any post (Section 3.9), will be followed by re-elections (or re-Nominations) for that post:

1. Re-election procedure shall be completed within a week of its announcement.
2. The eligibility criteria and procedure shall be the same as for normal elections.
3. For the posts decided by General Election, the last SACEC will be reconstituted.
4. Senate along with the CAC will manage the re-elections for the posts decided by Confined Elections.
5. For the Nominated Posts the nominations shall be sent to the Senate. Senate, with the consent of CAC, will decide upon the most appropriate nomination.
6. The dismissed office-bearers and/or the candidates in the inconsequential election cannot stand for the same post in the re-elections. However, he/she is not barred from standing for any post in the subsequent General Elections.
7. If fresh nominations are invited for the first stage of the General Elections for any reason, the candidates who have already failed the SAC Election quiz cannot file their nominations for any post in the first stage of the General Elections. However, he/she is not barred from filing a nomination in the subsequent General Elections.

3.9 Voting

1. A voter can cast a vote for any of the nominees for a post, or instead he/she can cast a blank vote, known as 'None of the Above' or NOTA, in which case no nominee receives a vote.
2. The number of votes cast as NOTA against each candidate will be kept track of (this is important when there are multiple positions in the same post, such as the post of Mess Representative).
3. For a candidate of a post, if the total number of votes cast as NOTA against himself/herself is greater than or equal to one third of the total number of voters who cast votes for that position, then that candidate will have been deemed rejected by the public. If all the nominees for a position are thus rejected, then the elections for that post will be said to be inconsequential, and re-elections will be held as per Section 3.8.

3.9.1 Examples

1. There are two nominees for the post of Secretary, Science Council (or for the post of Class Representative: Male) - Candidate A, and Candidate B.
150 voters come to the polls on the day of the elections, and the following tally is noted:
Candidate A : 60
Candidate B : 40
NOTA : 50
Since the number of votes cast as NOTA (50) is greater than or equal to one third of the total votes polled (150), both candidates are rejected and the elections for the post are inconsequential.
2. There are four nominees for the posts of Mess Representative (Boys) - Candidates, A, B, C and D. Since there are two positions to be filled, the votes will be counted in the following manner:
Suppose voter X casts his/her vote to Candidates A and B, then the following increase in the tally is marked:
Candidate A : +1 with NOTA +0
Candidate B : +1 with NOTA +0
Candidate C : +0 with NOTA +0
Candidate D: +0 with NOTA +0
Then, voter Y casts his/her vote to Candidate A and marks the other as NOTA. The tally is marked as:
Candidate A : +1 with NOTA +0
Candidate B : +0 with NOTA +1
Candidate C : +0 with NOTA +1
Candidate D: +0 with NOTA +1
Then, voter Z casts both his/her votes as NOTA. The tally is marked as:
Candidate A : +0 with NOTA +1
Candidate B : +0 with NOTA +1

Candidate C : +0 with NOTA +1

Candidate D: +0 with NOTA +1

In this manner, suppose 125 voters come to the polls on the day of the elections, and the following tally is noted:

Candidate A - 65 vs. 16 NOTA

Candidate B - 45 vs. 25 NOTA

Candidate C - 36 vs. 23 NOTA

Candidate D - 76 vs. 17 NOTA

Since one third of 125 is 41.6, and no candidate has received greater than or equal to 42 NOTA votes, hence no candidate is rejected. Candidates A and D are thus elected as the Mess Representatives.
